Notes

07/03/2024	Corrected duplicated data, 3 February counter records left on January worksheet - copy/paste error
18/07/2024	No signals recorded between 5/7/24 and 16/7/24, raw figures used (consider count for this period to be a minimum). Counter was offline throughout 16th, likely when tracker restarted it began overwriting the previously recorded information. Electrical contractors were on site that day, which would account the for reason the systems were switched off
